

The mission of EmployAbility is to assist people with disabilities to reach their career potential and provide a reliable and capable workforce to the business community.

Integrated Employment

EmployAbility is a non-profit employment agency for people with disabilities. We take a different approach to matching people with jobs, by first assessing the abilities, likes and dislikes of the job seeker. We then customize a position with an employer. When appropriate, EmployAbility goes further by supporting the employee with a job coach as long as is necessary to train them to work independently. Employers can expect professional, knowledgeable staff who will follow through with a complete plan for their new employee.

Agency Businesses

EmployAbility operates a Recycling Complex, Thrift Shop, Shred Service and Contracts Business from our facility located at 501 SW Virginia. All of the businesses operated by EmployAbility are for one purpose, **supporting our employment programs**. These businesses support our mission by employing people with disabilities as well as provide funding for our supported employment programs.
